EXPERIENCE

Alfa Financial Software Inc. Jun. 2024 – Present
Cloud Engineer Royal Oak, MI

- Engineered a proprietary **internal cloud management platform** to automate resource provisioning and successfully migrate enterprise clients from manual self-hosting to a **standardized AWS architecture**.
- Operationalized the cloud backend for high-volume financial systems, maintaining **99.9% availability** for a resource suite managing **1M+ active contracts** across 75+ AWS-hosted environments.
- Architected and implemented a **JWT-based authorization system** for internal **IaC tooling**, adopted across all project teams to secure sensitive infrastructure actions and eliminate configuration-related downtime.
- Optimized **CI/CD workflows** with Jenkins, GitHub, and Bitbucket, leveraging **Terraform and CloudFormation** to reduce manual deployment steps and accelerate environment scaling for 30+ enterprise clients.
- Led root-cause analysis for production outages using **CloudWatch and Sumo Logic** and documented new **recovery protocols** to prevent repeat infrastructure misconfigurations.

Masjidal Sep. 2025 – Present
Software Engineer Remote

- **Architected the full life-cycle development** of an **ESP32-based IoT streaming device** written in **C++ (PlatformIO)**, successfully launching the company's second-ever portable hardware product from scratch.
- Designed and implemented a **scalable cloud backend** using **AWS IoT Core, Lambda, and IAM** to securely process real-time device telemetry and execute remote user commands for a global fleet.
- Developed **high-performance firmware logic** for real-time audio streaming and integrated **certificate-based authentication** via AWS IoT fleet provisioning to enable secure, automated device onboarding.
- **Collaborated cross-functionally** with UI/UX, PCB designers, and executives to align device behavior with the product ecosystem, ensuring **system observability** through comprehensive **CloudWatch** logging.

PROJECTS

Tathkira | *Technical Project Manager* Mar. 2026 – Present

- **Directed the technical roadmap** and sprint execution for an event management and ticketing platform, coordinating a cross-functional team of engineers and designers via **Jira and GitHub** to deliver milestones on schedule.

Muneer Academy | *UI/UX Designer* Feb. 2026 – Mar. 2026

- **Led end-to-end UI/UX design** for a university learning platform, creating a **scalable visual system** and reorganizing information architecture through competitive analysis and iterative design reviews, resulting in a cleaner, more intuitive user experience.

EDUCATION

University of Michigan Ann Arbor, MI
Bachelor of Science in Computer Science Apr. 2024
Bachelor of Arts in Film, Television, and Media - Screenwriting Sub-Major Apr. 2024

SKILLS

Languages & Frameworks: Python, Java, C/C++, JavaScript, SQL, HTML/CSS, Groovy, Swift, Unity
Tools & Cloud: AWS (EC2, RDS, CloudWatch), Git/GitHub, IaC, Figma, Agile/Scrum
Creative: Narrative Design, Screenwriting, Video Editing (Adobe Premiere, DaVinci Resolve)
